Inspection availability tied to Username capitalization

Description

The application bases user instances around capitalization of usernames.

Projects /  / 

Unable to Sync Inspection

Description

When clicking on Sync inspection to a 6.7 BrM instance you get a Sync failed error and it doesn't complete

Projects /  /  / 

Inspection > Inspection List screen – Add "Inspection Notes" to the Inspection List screen

[General](#) [Test Cases](#)

Description

From Craig on 7/26:

Inspection Notes from the Inspection > Condition screen in BrM should appear at the top level Inspection List screen

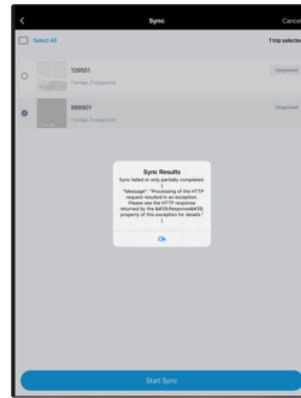

This would appear as the last row in the top section of the Inspection List screen, beneath "Inspection Procedures"

HOME SCREEN. SNBI TRANSITION COLORING

The screenshot displays the 'SNBI Collector' web application. The browser address bar shows 'https://snbi.mayave.com/'. The interface includes a left-hand navigation menu with options: Home, Field Search, Upload, Transition, Sync, and Settings. The main content area features a toolbar with 'Use SNBI Transition Coloring' (checked), 'Use Names as Headers', and a 'VIEW LEGEND' button. Below the toolbar is a data table with columns for various project categories and bridge identifiers.
